Date: 6 February 2026

To Whom It May Concern

Subject: Letter of Intent for cooperation within the framework of the SDG Blockchain Accelerator

On behalf of the University of Sarajevo – University Tele-Informatic Center (UTIC), we are pleased to confirm our intent to collaborate with **SALA** and **UNDP Bosnia and Herzegovina** within the framework of the **SDG Blockchain Accelerator**, specifically on the pilot initiative "**Digital Diplomas in Blockchain**" focused on blockchain-based academic credential verification.

The University Tele-Informatic Center (UTIC), as the central IT and digital infrastructure unit of the University of Sarajevo, expresses its readiness to support this initiative in matters related to academic credential data, institutional processes, and technical and organizational coordination relevant to the pilot implementation.

This collaboration aims to explore, test, and validate the applicability of blockchain technologies for secure, reliable, and verifiable academic credential management within the higher education context in Bosnia and Herzegovina.

This Letter of Intent is non-binding and serves solely as a confirmation of our mutual interest and strategic collaboration within the scope of the aforementioned pilot project under the UNDP SDG Blockchain Accelerator.

We look forward to constructive cooperation and further development of this initiative.
